

Color Palette Guide

Official brand colors with WCAG 2.2 AA contrast ratios, usage rules, and CSS tokens. Share this with designers, developers, and vendors.

Brand: Aykah (aykah.ca) WCAG 2.2 Level AA April 2026

01 · PRIMARY COLORS

Indigo Navy — Integrity + Trust

The foundation of the brand. Used for navigation, headings, buttons, and dark sections.

			
Primary #363B57 10.94:1 on white	Primary Dark #2A2E45 13.33:1 on white	Primary Light #4A5070 7.22:1 on white	Primary Tint #EDEEF2 Background only

02 · ACCENT COLORS

Warm Gold — Comfort + Friendly

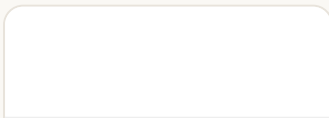

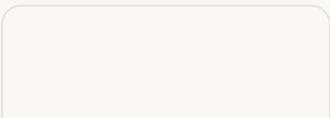

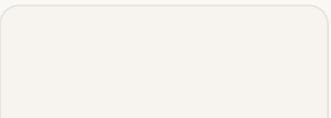

Gold has 3 distinct tokens — each for a specific use. Never interchange them.

			
Accent #B8956A 2.78:1 — DECORATIVE ONLY	Accent Text #8B6E4A 4.74:1 on white	Accent Button #7D6040 5.80:1 on white	Accent Light #D4BC9A Decorative only

03 · BACKGROUNDS

Warm Neutral Surfaces

Page backgrounds use a 60/30/10 ratio: 60% warm whites, 30% navy, 10% gold accents.

			
White #FFFFFF Primary background	Ivory #FAF8F4 Alternating sections	Warm #F7F3EE Hero & cards	Border #E8E3DB Always pair w/ shadow

60% WARM WHITES

30% NAVY

10%

04 · TEXT COLORS

Readable at Every Level

All text colors pass WCAG 4.5:1 minimum on white backgrounds, except disabled (intentional).

Body Text
#2C2C2C
13.97:1 on white

Muted
#6B6560
5.74:1 on white

Light

White on primary-dark	13.33:1	PASS
Primary-light on white	7.22:1	PASS
Muted text on white	5.74:1	PASS
Light text on white	4.83:1	PASS
Accent text on white	4.74:1	PASS
White on accent-btn	5.80:1	PASS
Success on white	5.11:1	PASS
Error on white	5.44:1	PASS
Accent on white — NEVER as text	2.78:1	FAIL
Disabled on white — disabled states only	2.11:1	FAIL

07 · USAGE RULES

Do's and Don'ts

Critical rules for anyone working with Aykah colors.

DO

NEVER

Use #B8956A as text color. It fails WCAG at 2.78:1. Zero exceptions.

Use #B8956A for decorative elements only: star icons, decorative lines, background gradients, icon fills, hover glows.

DO

Use #8B6E4A for any gold-colored text: links, labels, eyebrow categories, price highlights. Passes 4.5:1.

NEVER

Put white text on #B8956A background. Use #7D6040 for buttons instead.

DO

Use #7D6040 for buttons with white text. Passes both text and UI contrast requirements.

NEVER

Use #B8B2A8 for readable content. It is exclusively for disabled/inactive UI states.

DO

Always pair #E8E3DB borders with a box-shadow or background color change for visibility.

NEVER

Invent new colors outside this system. All hex values must come from this palette.

08 · CSS TOKENS

Copy-Paste Ready

Drop this into any project stylesheet to use the full Aykah color system.

```
/* AYKAH COLOR PALETTE — WCAG 2.2 Level AA */
